Attorney RJ Abernathy, addressed the Board:

I have a question Mayor? I heard the recommendation from the planning commission meeting on the Holmes issue and anyone with any kind of construction background at all would stand at the bottom of all that mountain of rock, hanging over the Rodriguez house and think that silt fence is going to do anything in the event that it collapses, that is the first thing. I cannot imagine anyone sitting at the board table, or anyone sitting in this room, other than Holmes, would find it even remotely reasonable to have 7 tandem dump trucks running in and out of your neighbor's yards, in and out of your neighbor's home at 9 pm of the night or 6 am in the morning. What are you trying to do here for the benefit of one company over the rest of your residents? You can rest assure, if you allow this to happen and continue to happen on Hollywood Heights Road, who is the next person who is going to come in here, apply falsely for a business license, open their business, creep (as I refer this term called, as Holmes Excavation has done over the last 30 years) and then at some point in the future, you will have another group of people here asking what are you all doing to allow these people to get away with murder next to me. You have at least two individual investor areas in this Village. If Mr. Holmes can afford to do all the things that he says he wants to do, including and up to, trying to buy my client's property, then he can surely move this large scale trucking and dumping outfit down Bunkum Road or down by Landshire. Now, I can't imagine that any of you would have this next to your home or that any of you would want it next to your grandpa, or that any of you think it is proper to make the rules and bend the rules for one company at the expenses of the rest of your residents, particular when Ms. Rodriguez has a mountain of illegal dumping hanging over her house, just waiting for it to come crashing down, like Ace Hart's pool did, down the road a few years ago. It's unbelievable to me and I can assure you that if this is passes, it is not going to be the end of it.
